**LITHUANIAN TRADE UNIONS GROW MORE ACTIVE -- Sovetskaya Litva, No 66, 20 Mar 49**

Almost 4 years have passed since the first Republic Congress of Trade Unions. During this time, the trade unions of Soviet Lithuania have become stronger under the supervision of the Communist Party. The number of union members has almost tripled. The network of lower trade-union organizations has expanded considerably. While there were 1,644 factory-plant and local committees in 1945 their present number has increased to 3,542. The number of trade-union groups in workshops has increased almost fivefold.

Factory, plant, and local committees of trade unions have become more efficient in organizing competition among the workers, in the "Elektrit" Plant in Vil'nyus, the "Kotton" stocking factory in Kaunas, the "El'nyas" Combine in Shyaulyay, the "Verrstas" factory, and others. At present 86 percent of union members participate in socialistic competition. The number of Stakhanovite schools has grown and 7,000 persons were trained in those schools during 1948.

percent of the members of local committees, factory-plant committees, and oblast committees were re-elected to their posts. Fifty-six percent of those elected to the staffs of trade-union organizations are holders of Soviet orders and medals.

The plenum ordered all trade-union organizations in the oblast to hold general conferences in April when reports of the local and factory-plant committees on the progress of fulfillment of decisions made at the auditing and electoral conferences will be heard. Oblast trade-union committees are obligated to report on their work to members of the union at least once every 6 months. The plenum order the Presidium of the Oblast Council of Trade Unions to organize courses and seminars to train trade-union personnel.
